

CLASSICS

Two hundred years ago, cocktails were a mixture of liquor, bitters, sugar and water—and that's all. More than two hundred years later, the meaning of the word "cocktail" has swollen to envelop any concoction we can think of that has booze in it. A Classic cocktail is defined as a cocktail which appeared after the publication of Jerry Thomas' 1887 Bar-Tender's Guide but before the end of Prohibition in the United States in 1934. Imagine a 1920's speak easy—hot, loud, smoke filled, and full of stylish people drinking classic American cocktails. Here is a sampling of some of those very cocktails. So that you can recreate your own speakeasy right here, right now.

JULEPS & SMASHES

Originally a medicine, the Julep has become a recreational drink and an American icon. Unfortunately, it has also become a perennial source of disagreement and contention amongst bartenders. We prefer not to enter the debate, so we'll just note that it's best known as a drink with liquor, mint and sugar served on crushed ice, and leave it at that. By another method, the mint julep may be considered as one of a loosely associated family of drinks called "smashes", in which fresh mint and other ingredients are muddled or crushed in preparation for flavoring the finished drink.

TIKIS & SOURS

The Tiki phenomenon can be traced back to the early 1930s, beginning with the post-prohibition opening of a tropical-themed eatery by Donn Beach, aka Don the Beachcomber. In addition to tropical Asian cuisine and a big helping of colorful Polynesian culture, he served up rum-based umbrella drinks, in large part because of the cheaper availability of rum at the time, compared with other spirits.

The sour evolved from the practice of adding lime juice to rum rations to prevent scurvy among sailors in the British Navy in the 1700s. As fresh fruit was perishable, the juice would be doctored with rum, or gin or later sometimes whiskey in order to preserve the juice as well as to ensure the health of the sailors. It didn't take long to figure out that citrus and spirits were enhanced by a bit of sugar making a rather palatable and delicious cocktail.

EXPERIMENTS

Molecular Mixology is the term applied to the process of creating cocktails using the scientific equipment and techniques of molecular gastronomy. These methods enable the creation of greater intensities and varieties of flavour, flavour combinations and different ways of presenting drinks, for example using gels, powders, foams, atomized sprays etc., as well as affecting the appearance of the cocktail.

CIGARS

The Tobacco legend is marked from beginning to end by careful attention, passion and pleasure. As old as time itself, it intertwines life and death, mystery and wealth, from its very origins and throughout its entire existence.

The discovery of the New World and the embrace of the two cultures sparkled magically and created a unique opportunity for a legend to merge with Modern History.

Cuba is the starting point of this extraordinary event which brings to our times the "Nicotiana Tabacum", transformed into insuperable cigars for the enjoyment of Humanity. The true story of tobacco is therefore one of beauty and drama and has only just begun...
