## Moofushi House Reef & Scuba Diving

### Snorkeling

Moofushi is an absolutely beginner and intermediate snorkeling paradise.

Moofushi is one of the very few resorts in the Maldives to have 3 large lagoons and is surrounded by a fantastic house reef that makes it extra special.

In terms of visibility on most days it is between 20 to 25 meters and the current is slow to moderate depends on the weather conditions. Marine life is very diverse in term of fish and corals. You can see different types of coral and multitude of reef fish mostly sting rays, sea cucumbers, lion fish, snappers and eels.

The best site for snorkeling lies on the eastern side of the island, the Main Reef. The Main Reef is just a few meters away from the beach and facing the channel where the fish and animals including migratory species like Manta's, Whale Sharks, Dolphins and Sea eagles which can pass right by. There are table corals as large as 3 feet in diameter that are easily visible with hundreds of fish surrounding them. Many other beautiful coral types and beautifully colourful fish just rest along the sea bed.
